

Zambian Education and Medical Support

Registered Charity No: 1162951

Trustees – Isabel Brown, Rebekah Hare, Priscilla Hayden, Peter Brown

February 2022

Jesus Christ the same yesterday, and today, and for ever. (Hebrews 13:8)

Anthony

Last year, thanks to generous financial support Anthony graduated with a First-Class Honours degree in Computer Studies. A remarkable achievement given the difficulties he had faced in his early life. He now has admin work at the Coptic hospital and reports from there suggest he is getting on very well.

Old MacDonald's Farm

Don and Christine are now back in Zambia. They are both working and have 10 boys living with them at the farm. Our main project during the last few months has been to rebuild the dormitories as the woodwork had been destroyed by termites. The work is now nearly complete and we give a special thankyou to everyone that contributed to this rebuild.

Tembenukani School

Tembenukani School has now reverted to its original name of Taonga School and is being run by Arise Africa who also run the 'MacDonald Brown' secondary school. A Zambian headteacher was appointed for the school and worked alongside Abigail last term where she is settling in well. The Grade 7 children sat their end of primary exams in October and received some very good results, and the first pupils at Taonga will have completed their education by the end of the year. Due to the Covid travel restriction there were delays to Abigail's plans but she eventually managed to travel back to the UK arriving just before Christmas and she is happy to know that the work will continue under the oversight of Arise Africa—you can find out more about them on their website: www.ariseafrica.org Abigail's blog: absinzam.blogspot.com

Mission Geeks

See above a picture of a pupil at Nayamba School drinking clean water following one of Mission Geeks water projects, and also, right, the maternity ward at Mkolonga Rural Health Post where they are involved in a renovation project. ZEMS have also been able to help with transport repairs this year to enable visits to remote areas where projects are being supported. www.missiongeeks.org
